**BIOLOGY PAPER ONE QUESTIONS (OBJ0009)**

**SECTION A**

1. Which of the following classes of phyla are used to classify the echinoderms? A. Annelids B. Insects C. Phylum echinodermata D. None of the above

2. Which of the following is not a function of echinoderm? A. Water transport B. Digestion C. Respiration D. Excretion

3. The echinoderms are classified on the basis of... A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

4. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

5. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

6. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

7. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

8. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

9. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

10. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

**SECTION B**

1. Which of the following statements is true about the echinoderms? A. They are all marine organisms B. They live in freshwater C. Both marine and freshwater D. None of the above

2. What is the function of the spines in echinoderms? A. Protection B. Digestion C. Respiration D. Excretion

3. The spines of echinoderms... A. Are made of calcium B. Do not move C. Are all the same D. Can be used for locomotion

4. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

5. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

6. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

7. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

8. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

9. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

10. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

**SECTION C**

1. Which of the following describes the shape of the chiton? A. Flat and wide B. Curved and streamlined C. Flat and narrow D. Curved and streamlined

2. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

3. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

4. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

5. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

6. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

7. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

8. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

9. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

10. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

**SECTION D**

1. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

2. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

3. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

4. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

5. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

6. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

7. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

8. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

9. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

10. Which of the following is not a characteristic of echinoderms? A. Echinodermata B. Platyhelminthes C. Cephalopoda D. Mollusca

From page 37

As a matter of fact, some of these congregate modules are already. In case of a pandemic-related issue like COVID-19, we are advised to keep a close watch on doctors and medical experts. This is a primary concern, not just for our personal safety, but also for those around us.

As far as I know, people are so careful about how to maintain their habits and lifestyles to prevent such diseases. The world has changed, both in a positive and negative way. People are now more aware of the importance of hygiene, but also more aware of the potential for harm to others.

As a result, people are now more disciplined in their actions, and more cautious about their interactions with others. They are also more likely to follow the guidelines and precautions provided by medical experts and public health officials.

As a conclusion, the world has changed for the better. People are now more aware of the importance of hygiene and the potential for harm to others. They are also more likely to follow the guidelines and precautions provided by medical experts and public health officials.

Summary writing

As a potential answer, we can say that the world has changed for the better. People are now more aware of the importance of hygiene and the potential for harm to others. They are also more likely to follow the guidelines and precautions provided by medical experts and public health officials.

The importance of old education and old tribal ways of teaching is an important aspect of our lives. Old education is still relevant today because it helps us to learn important values and skills that we need in life. For example, we learn how to respect our elders, how to be polite, and how to work hard.

Old education is also important because it helps us to understand our culture and traditions. We learn about our history and the achievements of our ancestors. This helps us to appreciate our culture and to be proud of our heritage.

Old education is also important because it helps us to develop important skills. For example, we learn how to read and write, how to solve problems, and how to think critically.

Old education is also important because it helps us to develop important values. For example, we learn the importance of hard work, perseverance, and respect.

Old education is also important because it helps us to understand our environment. We learn about the environment and the importance of taking care of it.

In conclusion, old education and old tribal ways of teaching are still relevant today because they help us to learn important values, skills, and knowledge that we need in life.

Sentence writing

Distance learning is still relevant today because it helps us to learn important values and skills that we need in life. For example, we learn how to respect our elders, how to be polite, and how to work hard.

Distance learning is also important because it helps us to understand our culture and traditions. We learn about our history and the achievements of our ancestors. This helps us to appreciate our culture and to be proud of our heritage.

Distance learning is also important because it helps us to develop important skills. For example, we learn how to read and write, how to solve problems, and how to think critically.

Distance learning is also important because it helps us to develop important values. For example, we learn the importance of hard work, perseverance, and respect.

Distance learning is also important because it helps us to understand our environment. We learn about the environment and the importance of taking care of it.

In conclusion, distance learning is still relevant today because it helps us to learn important values, skills, and knowledge that we need in life.

Passage writing

In conclusion, old education and old tribal ways of teaching are still relevant today because they help us to learn important values, skills, and knowledge that we need in life.

Distance learning is also important because it helps us to learn important values and skills that we need in life. For example, we learn how to respect our elders, how to be polite, and how to work hard.

Distance learning is also important because it helps us to understand our culture and traditions. We learn about our history and the achievements of our ancestors. This helps us to appreciate our culture and to be proud of our heritage.

Distance learning is also important because it helps us to develop important skills. For example, we learn how to read and write, how to solve problems, and how to think critically.

Distance learning is also important because it helps us to develop important values. For example, we learn the importance of hard work, perseverance, and respect.

Distance learning is also important because it helps us to understand our environment. We learn about the environment and the importance of taking care of it.

In conclusion, distance learning is still relevant today because it helps us to learn important values, skills, and knowledge that we need in life.

Passage writing

In conclusion, old education and old tribal ways of teaching are still relevant today because they help us to learn important values, skills, and knowledge that we need in life.

Distance learning is also important because it helps us to learn important values and skills that we need in life. For example, we learn how to respect our elders, how to be polite, and how to work hard.

Distance learning is also important because it helps us to understand our culture and traditions. We learn about our history and the achievements of our ancestors. This helps us to appreciate our culture and to be proud of our heritage.

Distance learning is also important because it helps us to develop important skills. For example, we learn how to read and write, how to solve problems, and how to think critically.

Distance learning is also important because it helps us to develop important values. For example, we learn the importance of hard work, perseverance, and respect.

Distance learning is also important because it helps us to understand our environment. We learn about the environment and the importance of taking care of it.

In conclusion, distance learning is still relevant today because it helps us to learn important values, skills, and knowledge that we need in life.

Passage writing

In conclusion, old education and old tribal ways of teaching are still relevant today because they help us to learn important values, skills, and knowledge that we need in life.

Distance learning is also important because it helps us to learn important values and skills that we need in life. For example, we learn how to respect our elders, how to be polite, and how to work hard.

Distance learning is also important because it helps us to understand our culture and traditions. We learn about our history and the achievements of our ancestors. This helps us to appreciate our culture and to be proud of our heritage.

Distance learning is also important because it helps us to develop important skills. For example, we learn how to read and write, how to solve problems, and how to think critically.

Distance learning is also important because it helps us to develop important values. For example, we learn the importance of hard work, perseverance, and respect.

Distance learning is also important because it helps us to understand our environment. We learn about the environment and the importance of taking care of it.

In conclusion, distance learning is still relevant today because it helps us to learn important values, skills, and knowledge that we need in life.

Passage writing

In conclusion, old education and old tribal ways of teaching are still relevant today because they help us to learn important values, skills, and knowledge that we need in life.

Distance learning is also important because it helps us to learn important values and skills that we need in life. For example, we learn how to respect our elders, how to be polite, and how to work hard.

Distance learning is also important because it helps us to understand our culture and traditions. We learn about our history and the achievements of our ancestors. This helps us to appreciate our culture and to be proud of our heritage.
